The Moorpark College EATM program (Exotic Animal Training Management) is a world-renowned training zoo. Students who complete this specialized EATM program acquire the degree, practical knowledge and skills to successfully perform scientific observations, provide appropriate animal husbandry, and apply training and animal behavior modification to a wide variety of exotic, domestic and non-domestic animals to further animal welfare and wildlife conservation.

Bring your athletes to this unique competition and join us to support America's Teaching Zoo, and their conservation efforts.
